

Winterfest 2023

- Plan for another fun Denali Winterfest February 24-26. The full schedule will be available on the park website at: nps.gov/dena/planyourvisit/winterfest.htm.
- The borough plans to host a Community Dinner, open and free to all, Saturday Feb. 25 at the Tri-Valley Community Center. After dinner there will be the presentation of the Community Service Award and BINGO! offered by the Native Village of Cantwell.

Street Addressing Project

- The borough is currently accepting requests for official street addresses! Both residential and commercial business street address applications can be found on the Denali Borough website at <https://www.denaliborough.org/addressing>. Paper applications are also available both online and at the borough office. The first letters informing residents of their official street addresses will be going out shortly.
- Staff has completed the field work gathering information for the street sign installation project.

Borough Budgets, Financial Statements and Audit

- Preliminary work on the FY 2023 Budget Amendment and the development of the FY 2024 Budget is ongoing.
- The drafting and auditing of the FY 22 financial statements is taking longer than anticipated primarily due to the retirement of our longtime auditor. The new audit team has new and different workflows and accounting support has experienced time lag. While we missed the state deadline (for which there is no penalty), we will be hitting the federal audit deadline of March 31.

Happy February. As always, feel free to contact me or staff with any questions.

- Clay
